

OBJECTS FOR EVERYDAY ROOMS

Form & Field

01

COLLECTION

*A small collection for
everyday rooms.*

Room to live.

The quiet collection

A catalogue built around everyday use, considered proportions and a small material palette.

This fictional collection begins with the reading corner. A lounge chair offers a place to pause; a small table keeps the things needed for an afternoon within reach. The photograph is an editorial illustration, not a photograph of a product for sale.

The demonstration specifications on the next page show how an existing product PDF can carry structured details alongside a simple story. They are invented examples and do not describe the pictured furniture.

In a real collection, the editor would supply approved materials, dimensions, availability and care instructions. Keeping those details in the original PDF preserves the layout that the studio has already prepared.
